KATALOG MNOGOČETINAŠA (POLYCHAETA) JADRANA

1. Sjeverni i srednji Jadran

CATALOGUE OF THE POLYCHAETOUS ANNELIDS OF THE ADRIATIC SEA

1. Northern and Central Adriatic

Antonietta Požar-Domac

Zoologijski zavod Prirodoslovno-matematičkog fakulteta Sveučilišta u Zagrebu

UVOD

Faunu Polychaeta sjevernog dijela Jadranskog mora počela sam obrađivati kao vanjski suradnik Instituta za oceanografiju i ribarstvo u Splitu, sudjelujući tako u znanstveno-istraživačkom projektu Republičkog Savjeta za naučni rad SR Hrvatske »Flora i fauna Jadranskog mora«. Tom sam prilikom obradila svu meni dostupnu literaturu koja se odnosi na istraživanje Polychaeta u Jadranskom moru. Bionomske sam radove, međutim, citirala samo u iznimnim slučajevima, ukoliko su bili zanimljivi za ovu skupinu: neke su vrste Polychaeta, naime prvi put u tim istraživanjima ustanovljene u Jadranu.

Zasada sam za područje sjevernog i srednjeg Jadrana inventarizirala 447 vrsta. Budući da su Laubier i Paris (1962) te Guille i Laubier (1966) ustanovili, da je u Mediteranu poznato 584 vrsta Polychaeta, to je prema tome u Jadranu poznato uglavnom preko 73% od ukupnog broja mediteranskih vrsta. U novije su vrijeme nađene u više navrata nove vrste od kojih su neke nepoznate i za mediteransko područje (Katzmann, 1973 d), a isto tako i za znanost uopće (Banse, 1959; Laubier, 1962a, Katzmann, 1973 c; e; f).

Ovu značajnu skupinu morskih beskralješnjaka počinju u Jadranu istraživati relativno rano. Grube (1861) istražujući razne beskralješnjake obrađuje i Polychaeta sakupljene u području tršćanskog zaljeva i Kvarnera, a kasnije (1864) na području Malog i Velog Lošinja. Marenzeller (1874; 1875) obrađuje Polychaeta prilikom obrade anelida Jadranskog mora, Graeffe (1905) prilikom obrade »crva« tršćanskog zaljeva, a Augener (1932) na području ušća rječice Timavo. Sterzinger (1910) istražuje rod *Spirorbis* u sjevernom Jadranu. Fauvel (1934) obrađuje, na osnovu materijala koji mu je dostavio Vatoša, Polychaeta okoline Rovinja, a zatim (1940) sjevernog i srednjeg Jadrana. Istraživanja Polychaeta u tom području nastavljena su i u novije vrijeme: uz obalu oko Rovinja (Banse, 1959; Bellan, 1969; Amoureux i Katzmann, 1971, Požar, 1972; Katzmann, 1972; 1973), te u lagunama Venecije (Fauvel, 1938; Cognetti, 1958 i Laubier, 1962a). U ostalim dijelovima Jadranskog mora takva su istraživanja relativno rijetka: Zei (1956) obrađuje samo pelagičke vrste Jadrana, a Meštrović (1957) bentoske uz obalu otoka Murtera (srednji Jadran). Katzmann (1973) obrađuje Polychaeta sakupljena uz zapadnu obalu srednjeg Jadrana.

Prije nešto više od desetak godina izdana je »Fauna und Flora der Adria« (Riedl, 1963; II. izdanje 1973), a prije godinu dana prvi svezak »Flora in favna severnega Jadrana« (Matjašič, Štirn et al., 1975); u oba dijela navedeno je oko stotinjak vrsta Polychaeta za sjeverni Jadran.

Iz izloženog je vidljivo, da su Polychaeta u području Jadrana istraživana samo periodički i u pojedinim regijama. Budući da se radi o skupini koja je bogato zastupljena u moru, kako brojem vrsta tako i jedinki, a s druge strane zbog sve većeg interesa za istraživanje ove skupine u Jadranskom moru, smatram da će biti korisno objavljivanje ovog kataloga koji — upravo zbog relativno velikog broja inventariziranih vrsta — omogućuje dobivanje cjelovite slike o fauni Polychaeta u sjevernom i srednjem dijelu Jadranskog mora, a time i lakše orijentiranje svima onima, koji se zanimaju za ovu značajnu skupinu naše faune.

U ovom sam radu primijenila nomenklaturu koju je predložila O. Hartman (1959; 1965), a u novije vrijeme prihvatila velika većina specijalista. Za dijagnoze, kao i detaljnu sinonimiju citirala sam uz svako ime vrste dva dijela »Faune de France«: Polychètes Sédentaires, Polychètes Errantes (Fauvel, 1923; 1927). U slučaju kad vrsta nije u spomenutim monografijama navedena, citirala sam autora koji je vrstu opisao ili u iznimnim slučajevima naknadno detaljno obradio. Uz svaku vrstu navedeni su i sinonimi pod kojima se ona spominje u Jadranu, te kronološkim redom autori koji su je ustanovili u ovom području. U indeks sam, zbog lakšeg snalaženja u literaturi starijih autora, uz »nomina valida« uvrstila i sinonime.

CATALOGUE OF THE POLYCHAETOUS ANNELIDS OF THE ADRIATIC SEA

1. Northern and Central Adriatic

Antonieta Požar-Domac

SUMMARY

This catalogue contains a taxonomic list of 447 species of Polychaetous Annelids. The data are compiled from the literature which is dealing with this group in the area of Northern and Central Adriatic. The nomenclature of O. Hartman (1959, 1965) has been used. The name of each species is followed by data on the description of the species, and on synonyms as well as findings concerning the Adriatic area.

The relatively large number of species cited gives a more complete picture about the fauna of Polychaetous in the Northern and Central Adriatic.

INDEXS

<i>Acholoe astericola</i>	5	ARABELLIDAE	26
<i>Acholoe squamosa</i>	5	<i>Arenicola branchialis</i>	36
<i>Acrocirus frontifilis</i>	32	<i>Arenicola Grubei</i>	36
<i>Aglaophamus inermis</i>	21	<i>Arenicola marina</i>	36
<i>Aglaophamus rubella</i>	21	<i>Arenicola piscatorum</i>	36
<i>Alciopa cantrainii</i>	11	ARENICOLIDAE	36
ALCIOPIDAE	11	<i>Aricia Cuvieri</i>	28
<i>Alciopina parasitica</i>	11	<i>Aricia foetida</i>	28
<i>Amaea trilobata</i>	38	<i>Aricia Grubei</i>	28
<i>Amacana trilobata</i>	39	<i>Aricia norvegica</i>	28
<i>Amage adspersa</i>	38	<i>Aricia (Orbinia) Cuvieri</i>	28
<i>Amblosyllis formosa</i>	14	<i>Aricia (Phylo) grubei</i>	28
<i>Amblosyllis lineata</i>	14	<i>Aricidea annae</i>	28
<i>Ammotrypane abranchiata</i>	34	<i>Aricidea catharinae</i>	28
<i>Ammotrypane cylindricaudatus</i>	34	<i>Aricidea claudiae</i>	29
<i>Ammotrypane modesta</i>	34	<i>Aricidea fauveli</i>	29
<i>Ammotrypane norvegica</i>	35	<i>Aricidea jeffereysii</i>	29
<i>Ampharete acutifrons</i>	38	<i>Aricidea monicae</i>	29
<i>Ampharete Grubei</i>	37	<i>Aricidea punctata</i>	29
AMPHARETIDAE	38	<i>Armandia cirrosa</i>	35
<i>Amphicteis gunneri</i>	38	<i>Armandia oligops</i>	34
<i>Amphitene auricoma</i>	38	<i>Armandia polyophthalma</i>	35
<i>Amphiglena mediterranea</i>	42	<i>Asclerocheliu intermedius</i>	34
AMPHINOMIDAE	8	<i>Asterope candida</i>	12
<i>Amphitrite auricoma</i>	38	<i>Asychis biceps</i>	36
<i>Amphitrite cirrata</i>	39	<i>Asychis gotoi</i>	36
<i>Amphitrite gracilis</i>	38	<i>Audouinia filigera</i>	31
<i>Amphitrite johnstoni</i>	39	<i>Audouinia tentaculata</i>	33
<i>Amphitrite rubra</i>	39	<i>Autoly aurantiacus</i>	15
<i>Amphitrite variabilis</i>	40	<i>Autolytus benazzii</i>	15
<i>Amphitritides gracilis</i>	40	<i>Autolytus brachycephalus</i>	15
<i>Anaitides lineata</i>	9	<i>Autolytus edwardsi</i>	15
<i>Anaitides madeirensis</i>	9	<i>Autolytus pictus</i>	15
<i>Anaitides mucosa</i>	9	<i>Autolytus prolifera</i>	15
<i>Anaitides subulifera</i>	9	<i>Autolytus rubropunctatus</i>	15
<i>Apistobranchus tullbergi</i>	28	<i>Axiothella constricta</i>	36
<i>Aphrodita aculeata</i>	4		
<i>Aphrodita sericea</i>	4	<i>Boccardia polybranchia</i>	29
<i>Aphrodite aculeata</i>	4	<i>Brada villosa</i>	33
<i>Aphrodite echinus</i>	4	<i>Branchiomma bombyx</i>	42
<i>Aphrodite hystrix</i>	4	<i>Branchiomma Kollikeri</i>	43
APHRODITIDAE	4	<i>Branchiomma lucullana</i>	42
APISTOBRANCHIDAE	28	<i>Branchioma vesiculosum</i>	43
<i>Apistobranchus tullbergi</i>	29	<i>Brania clavata</i>	15
<i>Apomatus ampuliferus</i>	44	<i>Brania limbata</i>	15
<i>Arabella coeca</i>	27	<i>Brania pusilla</i>	15
<i>Arabella geniculata</i>	27	<i>Brania tenuicirrata</i>	15
<i>Arabella iricolor</i>	26		

<i>Callizona nasuta</i>	12	<i>Enapteris euchaeta</i>	13
<i>Callizonella lepidota</i>	11	<i>Eone Nordmanni</i>	23
<i>Capitella capitata</i>	35	<i>Ephesia gracilis</i>	22
CAPITELLIDAE	35	<i>Eteone lactea</i>	9
<i>Caulleriella bioculata</i>	32	<i>Eteone (Mysta) picta</i>	10
<i>Caulleriella caput-esocis</i>	32	<i>Eteone (Mysta) siphonodonta</i>	10
<i>Caulleriella killariensis</i>	32	<i>Euchone rubrocincta</i>	42
<i>Ceratonereis costae</i>	19	<i>Euclymene collaris</i>	36
<i>Ceratonereis hircinicola</i>	19	<i>Euclymene lumbricoides</i>	36
CHAETOPTERIDAE	31	<i>Euclymene oerstedii</i>	37
<i>Chaetopterus pergamentaceus</i>	31	<i>Euclymene palermitana</i>	37
<i>Chaetopterus variopedatus</i>	31	<i>Euclymene santanderensis</i>	37
<i>Chaetozone setosa</i>	32	<i>Eulalia bilineata</i>	9
<i>Chloea venusta</i>	8	<i>Eulalia macroceros</i>	11
<i>Chone collaris</i>	42	<i>Eulalia obtecta</i>	10
<i>Chone duneri</i>	42	<i>Eulalia punctifera</i>	11
CHRYSOPETALIDAE	8	<i>Eulalia velifera</i>	11
<i>Chrysopetalum debile</i>	8	<i>Eulalia venustissima</i>	9
<i>Chrysopetalum fragile</i>	8	<i>Eulalia virens</i>	9
CIRRATULIDAE	32	<i>Eulalia viridis</i>	9
<i>Cirratulus cirratus</i>	32	<i>Eulalia (Eumida) pallida</i>	9
<i>Cirratulus filiformis</i>	32	<i>Eulalia (Eumida) sanguinea</i>	9
<i>Cirratulus Lamarckii</i>	33	<i>Eulalia (Pterocirrus) limbata</i>	11
<i>Cirriformia filigera</i>	32	<i>Eulalia (Pterocirrus) macroceros</i>	11
<i>Cirriformia tentaculata</i>	33	<i>Eulepis geayi</i>	8
<i>Clavodorum adriaticum</i>	?	<i>Eumida sanguinea</i>	9
<i>Clymene digitata</i>	37	<i>Eunereis longissima</i>	19
<i>Clymene leiopygos</i>	37	<i>Eunice aphroditois</i>	24
<i>Clymene lophosetosa</i>	36	<i>Eunice Claparedii</i>	24
<i>Clymene palermitana</i>	37	<i>Eunice harassii</i>	24
<i>Clymene spathulata</i>	37	<i>Eunice pennata</i>	24
<i>Clymene (Euclymene) collaris</i>	35	<i>Eunice purpurea</i>	24
<i>Clymene (Euclymene) lumbricoides</i>	35	<i>Eunice Rousseaui</i>	24
<i>Clymene (Euclymene) Oerstedii</i>	35	<i>Eunice sanguinea</i>	25
<i>Clymene (Euclymene) santanderensis</i>	37	<i>Eunice schizobranchia</i>	24
<i>Clymene (Praxillella) gracilis</i>	37	<i>Eunice siciliensis</i>	25
<i>Clymene (Praxillella) lophosetosa</i>	37	<i>Eunice torquata</i>	24
<i>Clymene (Praxillella) lophosetosa</i>	37	<i>Eunice violacea</i>	24
<i>Clymene (Praxillella) praetermissa</i>	37	<i>Eunice vittata</i>	25
<i>Clylenura clypeata</i>	37	EUNICIDAE	24
<i>Corynocephalus albo-maculatus</i>	11	<i>Euphrosine Audouinii</i>	8
CTENODRILIDAE	33	<i>Euphrosine foliosa</i>	8
<i>Ctenodrilus serratus</i>	33	<i>Euprosine mediterranea</i>	8
<i>Dasybranchus caducus</i>	36	<i>Euphrosine myrtosa</i>	8
<i>Dasybranchus gajolae</i>	36	EUPHROSINIDAE	8
<i>Dasychone Bombyx</i>	42	<i>Eupolymnia nebulosa</i>	40
<i>Dasychone Lucullana</i>	42	<i>Eupolymnia nesidensis</i>	40
<i>Dasymallus caducus</i>	36	<i>Eupomatus helmatas</i>	44
<i>Dexiospira corrugata</i>	44	<i>Eupomatus uncinatus</i>	45
<i>Dexiospira pagenstecheri</i>	44	<i>Eusyllis assimilis</i>	16
<i>Dialychone acustica</i>	42	<i>Eusyllis blomstrandii</i>	16
<i>Diplocirrus glaucus</i>	33	<i>Eusyllis lamelligera</i>	16
DISOMIDAE	31	<i>Euthalanessa dendrolepis</i>	8
<i>Ditrupea arietina</i>	44	<i>Evarne antilopes</i>	5
<i>Dodecaceria concharum</i>	33	<i>Evarne Johnstoni</i>	5
<i>Dorvillea atlantica</i>	27	<i>Evarnella impar</i>	5
<i>Dorvillea kefersteini</i>	27	<i>Exogone brevipes</i>	16
<i>Dorvillea neglecta</i>	27	<i>Exogone fauveli</i>	16
<i>Dorvillea rubrovittata</i>	27	<i>Exogone gemmifera</i>	16
<i>Dorvillea rudolphi</i>	27	<i>Exogone hebes</i>	16

Serpula contortuplicata	46	Staurocephalus Rudolphi	26
Serpula echinata	46	STERNASPIDIDAE	35
Serpula intestinum	46	Sternaspis scutata	35
Serpula lobiancoi	46	Sternaspis thalassemoides	35
Serpula pallida	46	Sthenelais boa	7
Serpula Philippii	46	Sthenelais ctenolepis	7
Serpula protensa	46	Sthenelais fuliginosa	7
Serpula triquetra	46	Sthenelais limicola	7
Serpula uncinata	45	Sthenelais minor	7
Serpula vermicularis	46	Streblosoma bairdi	41
SERPULIDAE	44	Streblospio shrubsolli	31
Sigalion Idunae	7	Stylaroides eruca	34
Sigalion mathildae	7	Stylaroides flabellata	34
Sigalion squamosum	7	Stylaroides monolifer	34
Sigambra tentaculata	14	Stylaroides plumosa	34
SIGALIONIDAE	7	Subadyte pellucida	47
Sige limbata	11	SYLLIDAE	14
Sige macroceros	11	Syllides edentula	18
Siphonostoma diplochaitos	33	Syllides longocirrata	18
Sosane gracilis	39	Syllis amica	18
Sosane sulcata	39	Syllis brevipennis	18
SPHAERODORIDAE	21	Syllis clavata	15
Sphaerodoridium adriaticum	21	Syllis ferruginea	16
Sphaerodoridium balticum	22	Syllis gigantea	18
Sphaerodoridium longiparapodium	22	Syllis gracilis	18
Sphaerodoridium minutum	22	Syllis hyalina	19
Sphaerodoridium philippi	22	Syllis lussinensis	18
Sphaerodorum clapedii	22	Syllis macrocola	18
Sphaerodorum flavum	22	Syllis nigricirris	18
Sphaerodorum gracilis	22		

<i>Syllis ochracea</i>	18	TOMOPTERIDAE	13
<i>Syllis prolifera</i>	18	<i>Tomopteris apsteini</i>	13
<i>Syllis rubropunctata</i>	15	<i>Tomopteris catharina</i>	13
<i>Syllis spongicola tentaculata</i>	16	<i>Tomopteris cavalli</i>	13
<i>Syllis variegata</i>	19	<i>Tomopteris elegans</i>	13
<i>Syllis vittata</i>	19	<i>Tomopteris euchaeta</i>	13
<i>Syllis zebra</i>	18	<i>Tomopteris kefersteini</i>	13
<i>Syllis (Ehlersia) cornuta</i>	16	<i>Tomopteris ligulata</i>	13
<i>Syllis (Ehlersia) ferruginea</i>	16	<i>Tomopteris planktonis</i>	13
<i>Syllis (Haplosyllis) spongicola</i>	16	<i>Tomopteris (Johnstonella) Apsteini</i>	13
