Split, Croatia

# MONGOODS

## 5<sup>th</sup> General Assembly

&

### WORKSHOP

*“Advances in Oceanographic Modelling in the Mediterranean Sea “*

**Hotel Cornaro, Split, Croatia, November 15 – 17, 2016**

### Logistic information

Below you can find some useful information concerning the organization of the meeting.

#### Meeting venue:

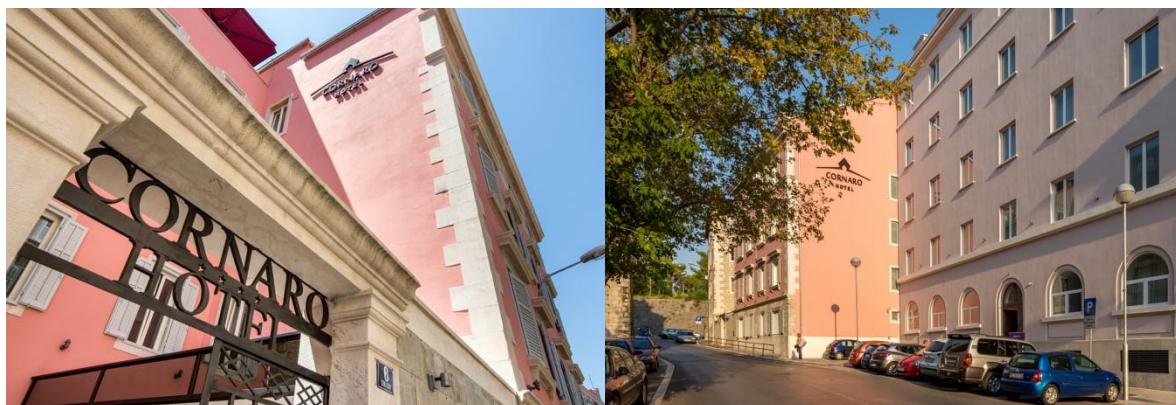

The venue for the conference is the **Hotel Cornaro** (<http://www.cornarohotel.com>).

**Hotel CORNARO** - 4 star hotel

Sinjaska 6, Split (21 000), Croatia

Phone: +385 21 644 200

Fax: +385 21 644 201

## LOCATION

**Hotel Cornaro** is located in Split center, close to the Diocletian's Palace (UNESCO world heritage site) and 10 minutes' walk to the ferry port, bus and railway station.

## How to reach downtown:

### BY PLANE

Split Airport is 25 km away from Hotel Cornaro and is very well connected to the majority of European countries, either directly or via Zagreb. From the airport to Split town, you can use shuttle bus (30 kuna\*/approx. 4,50 Euros) which departs after each flight and takes you to the Palace walls. You should get off at last bus stop. Taxi charges 300 – 350 kuna\*/approx. 40 Euro – for one-way drive.

\*Croatian national currency

### BY BOAT

Split is connected with Rijeka by the coastal ferry line (Jadrolinija) and by international line to Ancona in Italy (BLUE LINE, Jadrolinija, SNAV).

### BY BUS

Split Bus Station is located next to the ferry port and is well connected to all major cities in Croatia and abroad.

## Lodging

We suggest just a few possibilities and mostly hotels that have offered us reasonable prices for the MONGOOS participants. **Searching the internet will, of course, open the numerous alternatives.**

### **Hotel CORNARO - 4 star hotel**

<http://www.cornarohotel.com>

## Information about the Institute of Oceanography and Fisheries (IOF):

Institute of Oceanography and Fisheries (IOF) in Split is the leading center for sea research in the Republic of Croatia. By the decision of the Croatian Government, the IOF in 2012 became National Referral Centre for the Sea. With 120 employees (out of which 55 scientists) and valuable modern equipment, the IOF scientific, professional, educational and counseling activities are focused to study and preservation of marine environment. Equally is important the systematic research and the interpretation of spatial and temporal changes in oceanographic processes in the sea including the forecast of possible process development as contribution to the creation of measures for preserving the Adriatic ecosystem.

More information about the Institute: <http://www.izor.hr/web/guest/home>
